Massage Release

During pregnancy, the body undergoes major changes of both a physical and psychological nature. Massage Therapy can be a safe, drug free method to release muscle tension and emotional stress.

I understand that a massage therapist is not a medical doctor and that massage therapy does not replace routine obstetrical care. I have reviewed the following list of pregnancy complications, and verify that I do not currently have any of the following conditions or symptoms:

A diagnosis as a high-risk pregnancy by my physician

Pre-term labor/possible miscarriage: discharge of blood, amniotic bag ruptured, pains or contractions in uterus

Pre-eclampsia (GEPH): unusual weight gain, protein in urine, high blood pressure

Eclampsia (toxemia): severe water retention, headaches, back pain, vomiting, visual disturbances

Gestational Diabetes: abnormal appetite/thirst, sugar in urine

Deep Vein Thrombosis: pain, redness, or swelling isolated to one leg

I have had opportunity to ask the massage practitioner any questions I may have about pregnancy massage, and I have discussed this with my physician or other prenatal health care practitioner. I affirm that I do not currently have any of the above conditions except as listed here: (list any symptoms from above list or other conditions relevant to receiving massage, or write "none")

If I suspect that I develop any of the above symptoms, I will promptly notify the massage therapist in writing, and I will obtain a written release from my obstetrician before seeking further massage. I consent to allowing the massage practitioner to contact my primary care provider regarding my condition. By placing my signature on this form, I permanently release Brenda Sweeney, LMT, and their insurers, heirs or assigns from all liability to me or my unborn child that may arise as a result of my receiving massage therapy during this pregnancy. I agree to defend and hold harmless Brenda Sweeney, LMT from any claims that may arise as a result of my receiving prenatal massage.
